991	Wildlife Ecology	Bachelors	yes		Annually planned							Annually (M.S.)	ad hoc				
991	Wildlife Ecology	Graduate						Annually		annually		Annually					

This grid is designed to assist schools and colleges in the preparation of the annual assessment reports.

Academic programs are listed alphabetically by major, rather than by academic department, even though some units develop assessment plans for departments, because not all academic programs are associated with a single department, and not all departments have a single major.

Using the grid: Please specify with assessment activities have taken place or will take place in each program, and the year when these activities took place, or will take place. For example, if a program evaluated performance in the capstone course as part of the assessment activities this year, indicate "03-04". If the program uses national testing or licensure every year, indicate "annually". If an activity is continuing from a previous year, indicate "03-04"; an example of this might be a survey that was conducted in one year, analyzed in the next, and for which the results continue to inform discussions about curricular changes over successive years. If an activity is conducted periodically, indicate the last year.
